

BERGHAUS TACTICAL

MILITARY & POLICE
LOAD CARRYING SYSTEMS
— 2025 —

LV EQUIPMENT BV

(LV), a Dutch based wholesale company, supplies products to end users from military & police entities. Distribution is made to NATO, government bodies direct, or through commercial accounts in the EC. LV was founded in 1985 as a wholesale company and has been distributing outdoor specialist gear until 2008. Over the years a number of governments have become a customer, not in the last place because of back ground and experience of its founder.

The knowledge and understanding of military & police requirements and the ongoing demand for high performing products in the field of carrying systems (rucksacks), clothing, footwear and accessories has led to the decision to change the organization in 2008, focusing solely on military & police gear. LV has an exclusive license agreement with Berghaus Ltd. in the UK for the distribution of Berghaus Tactical products throughout the EMEA. The license agreement allows LV to develop specific carrying systems for the military & police. Berghaus has almost 50 years experience with regard to rucksack making. Combined with the knowledge LV has about the needs of military & police operators, a unique platform has been created for building highly functional and extremely durable carrying systems.

FIGHT LIGHT PACK SYSTEM (FLT)

FLT is the latest development from the Berghaus Tactical range of load carrying products. Military personnel on foot is suffering from increasing weight of combat equipment, often affecting awareness in a negative way. The development for light weight load carrying system (LCS) contributes to a higher performance level of the soldiers without sacrificing on key features and the comfortable load transfer which Berghaus Tactical LCS are known for.

The fabric, a 560 dtex polyamide, used for the FLT range of products meets the requirements of the **Bundeswehr TL 8305-0278**, including a high end infrared protection.

The rucsacs can be customised with a wide range of smart accessories allowing operators to customise their rucsac for any specific mission. Different size (side) pockets, functional pockets, internal organiser pads and stash pack are making the FLT range to a comprehensive LCS.

The accessories all have Accessory Connector Hooks (ACH). ACH are specific designed hardened aluminum hooks with which accessories can be attached or removed quickly. With the ACH application, operators are not limited to use the zippers from the side pockets for attachment of pockets only. ACH offers besides side pockets additional possibilities for attachment of functional pockets at the same time.

The inside of the FLT rucsacs have two webbing loops for integration of a functional organiser- and or radio pad. A foldable stash pack can also be hung inside. The stash pocket can be used to hold smaller equipment when attached on the webbing loops, or stand-alone as an ultra light weight rucsac.

FLT is a major step forward to the agility of operators. **Light and fast !**

FLT STASH PACK - IR

LV00150-xxx

GENERAL

Stash Pack is a 24 litres foldable comprehensive day pack, which can either be stowed inside any rucsac, or can be hung on the inside of FLT rucsacs as well as inside 2nd generation MMPS FA packs. A thin padding in the back panel prevents discomfort caused by sharp equipment. Stash Pack offers an incredible flexibility when the main rucsac has to stay packed or has to stay on a different location.

FEATURES

- Back panel with thin padding
- Roll top closure
- Zippered front pocket
- Includes FLT Shoulder Harness IR with Accessory Connector Hooks (ACH)

SPECIFICATIONS

-  Nylon N66 70D 210T ripstop IR coated
-  Appr. 45cm (H) x 30cm (W) x 20cm (D)
-  Appr. 315g
-  24l

COLORS

-  C01 Cedar

COMPATIBLE WITH

- FLT rucsacs (attachable in main compartment on integrated webbing loops)
- Fits all MMPS rucsacs (attachable in main compartment on integrated webbing loops)
- Stand-alone or stowable in any rucsac

FLT POCKETS S - IR

LV00143-xxx

GENERAL

Depending on individual requirements a choice can be made for FLT Pockets S, M or L. The side pockets fit on every FLT rucksac, either at the sides or the front, using the ACH applications.

FEATURES

- Comes as a pair

COMPATIBLE WITH

- All FLT rucsacs
- Fits all MMPS rucsacs (attachable in main compartment on integrated webbing loops)

SPECIFICATIONS

- Cordura 560 dtex **TL 8305-0278**
- Appr. 45cm (H) x 15cm (W) x 13cm (D)
- Appr. 240g
- 8l (pair)

MULTI MISSION PACK SYSTEM

The Berghaus brand is synonymous with performance and protection, so when it comes to providing equipment for the military, police or security, we know what matters. The Multi Mission Pack System (MMPS) has been developed with input from experts in their field to deliver a family of packs that integrate and share modular parts. MMPS delivers the flexibility to carry any load from 10 litres up to 120 litres of kit, depending on the type of mission.

MMPS CRUSADER IV 90+20

BHE000182-xxx

GENERAL

The Crusader IV 90+20 is the top size in our MMPS (Multi Mission Pack System). Designed as a modular system the Crusader side pockets integrate with the Berghaus Centurio 45 and Centurio 30 sacs to offer a flexible pack system to support different mission requirements.

FEATURES

- Cyclops II back-system
- Two detachable MMPS side pockets zip together to make a daypack (shoulder straps and chest strap are included in top compartment)
- Hydration system compatible
- Ski attachment points on side pocket and backpack body
- Hip belt tightens by pulling two straps in a forward direction

MMPS CRUSADER III 90+20 FA

LV00081-xxx

GENERAL

Crusader 90 + 20 FA stands for front access. Being part of the MMPS family it shares the same modules, offering the same flexibility. The front access allows the operator to quickly pull out equipment from the lower part without having to take out other equipment stowed on top. Loops inside on the back panel can optionally be used to attach a MMPS Radio Pad, keeping the radio nicely stowed against the inside back of the rucksack. Antenna, cables etc. can be fed through openings at the top of the rucksack body

FEATURES

- Cyclops II back-system
- Two detachable MMPS side pockets zip together to make a daypack (shoulder straps and chest strap are included in top compartment)
- Hydration system compatible
- Ski attachment points on backpack body
- Hip belt tightens by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness
- Front Access (FA)
- Hidden mesh pocket in front access panel to stow a helmet or jacket etc. on the outside
- Rain cover compartment in the bottom (rain cover not included)
- 4 loops on the inside back panel to attach MMPS radio pad

SPECIFICATIONS

HIDDEN HELMET POCKET

SMPS FOLDABLE DAYPACK III LV00051-xxx

GENERAL

Foldable Daypack III origins from the SMPS range of products. Because of the versatile use, it also fits perfectly in the MMPS range. Foldable Daypack III is a next generation foldable modular daypack. It can be stowed anywhere in a rucksac, or pocket, because of it's weight and small volume when folded. Foldable Daypack III provides 35l additional space. Foldable Daypack III can take the side pockets from any large rucksac in the range, totalling to a volume of 55l.

FEATURES

- Compatible with all BMPS/FMPS/MMPS/SMPS zippers
- Forms a 55l rucksac in combination with MMPS Pockets

MMPS HYDRATION POCKET III (WITHOUT RESERVOIR) BHE000185-xxx

GENERAL

The MMPS Hydration pocket integrates with: Centurio, Crusader and Vulcan rucsacs (on molle and/or side zippers) as well as working as a stand alone hydration daysac. The whole MMPS system offers a great level of flexibility in supporting different mission requirements.

FEATURES

- Compatible with BMPS/FMPS/MMPS/SMPS side zippers
- Removable shoulder straps
- Zipped front pocket(s)
- Suitable for 3l bladder
- Reflective lining to help keep the water cool

MMPS MOLLE PAD LV00092-xxx

GENERAL

MMPS Molle Pad fits the standard zippers from all packs. When placed instead of a side pocket, molle pads can take any pouch with molle straps, offering even more flexibility when it comes to customising a pack.

FEATURES

- Comes as a pair
- Compatible with BMPS/FMPS/MMPS/SMPS side zippers

MMPS ORGANISER POCKET II

LV00060-xxx

GENERAL

The Organiser Pocket II has been built to store life saver medic equipment, maps, admin, optics and electronic devices. With three removable different configured blades, the Organiser Pocket II can be customized to attach, or to put in all kind of different small equipment. Organiser Pocket II will also hold a military laptop. Cables can be fed through openings on all four corners.

FEATURES

- Compatible with BMPS/FMPS/MMPS/SMPS side zippers
- Removable shoulder straps
- Three removable different configured blades
- Three removable mesh pockets
- Molle inside to attach a military laptop

MMPS POCKETS III

BHE000193-xxx

GENERAL

The MMPS pockets III integrate with: Centurio, Crusader and Vulcan rucsacs as well as being convertible into a 20L daysac. The whole MMPS system offers a great level of flexibility in supporting different mission requirements.

FEATURES

- Compatible with BMPS/FMPS/MMPS/SMPS side zippers
- MMPS pockets III zip together to form a daysac
- Includes removable shoulder straps & chest strap

MMPS LARGE POCKETS III

BHE000184-xxx

GENERAL

The MMPS Large pockets III integrate with: Centurio, Crusader and Vulcan rucsacs as well as being convertible into a 30L daysac. The whole MMPS system offers a great level of flexibility in supporting different mission requirements. Ideal for use during winter ops, to keep a warm jacket and stove accessible without having to open the main pack.

FEATURES

- Compatible with BMPS/FMPS/MMPS/SMPS side zippers
- MMPS Large pockets III zip together to form a daysac
- Includes removeable shoulder straps & chest strap

MMPS UTILITY POCKET

LV00059-xxx

GENERAL

Padded pocket, suitable to stow a minimum of four folded (satcom) antenna's with sections up to 50cm long, an oxygen bottle from medic staff or demolition equipment etc.

FEATURES

- Compatible with BMPS/FMPS/MMPS/SMPS side zippers
- Removable shoulder straps

MMPS RADIO PAD

LV00090-xxx

GENERAL

MMPS Radio Pad takes any portable radio. The Radio Pad can be attached against the inside back panel of a front access (FA) rucsac, keeping the radio nicely against the center of the back. Shoulder straps are included to carry the radio pad with radio stand alone.

FEATURES

- Includes shoulder straps and chest strap
- Fits all MMPS rucsacs (attachable in main compartment on integrated webbing loops)

MMPS HYDRATION RESERVOIR 3L

HP6922-xxx

GENERAL

3L Hydration reservoir using Hydrapak plug n play technology for easy hose removal. The MMPS Reservoir also features an extra long insulated hose (48", 122cm) to allow you the flexibility of mounting the reservoir anywhere on your pack and still hydrate on the move.

FEATURES

- Plug 'n' play hose connector allows for easy filling
- BPA and PVC free
- Roll top closure with wide mouth for easy filling
- Reversible reservoir for easy maintenance
- High flow bite valve with ON/OFF positions
- Bite valve with integrated dust cover
- Extra Long (48", 122cm) insulated hose to allow flexible carry options

STEP 2

SMPS DRAGBAG LONG III WITH ATTACHED SIDE POCKETS & FOLDABLE DAYPACK III

SPECIAL MISSION PACK SYSTEM

The track record Berghaus has in the field of MMPS rucsacs has led to further development of a mission specific military/police carrying system. A modular Special Mission Pack System (SMPS) has been developed to carry a variety of long-distance rifles and anti-tank weapon systems. The envelope in the back of Crusader 90+20 II WS - FA (Weapon Systems) can take DragBag Long for sniper rifles up to a length of 130 cm. Larger rifles can be put inside DragBag Long in two parts. Alternatively, anti- tank weapon systems and larger rifles can be carried in one piece, when placed direct in the envelope of the Crusader 90+20 II WS - FA.

SMPS consists of three components, which can be used stand alone or interacting together, depending on the type of mission. SMPS delivers the flexibility to carry anti-tank missiles or a long-distance rifle without sacrificing space for individual combat equipment.

SMPS CRUSADER 90+20 II WS - FA

LV00190-xxx

GENERAL

Crusader WS has an envelope against the center part across the whole back, in which a long distance rifle, anti-tank missile etc. can be placed. Optionally DragBag Long can be fitted in the envelope also. The complete original pack volume from Crusader 90+20 remains available to stow (individual) combat equipment.

FEATURES

- Falanx back system
- Front Access (FA)
- Removable pad creating space for ballistic protection
- Two detachable MMPS side pockets zip together to make a daypack (shoulder straps, chest strap and arm rest straps are included in top compartment)
- Hydration system compatible
- Ski attachment points on side pocket and backpack body
- Hip belt tightens by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness
- Envelope to store a long distance rifle, anti-tank missile, or DragBag Long with rifle fitted
- Retractable, lockable bottom envelope

SPECIFICATIONS

- Armadura 1000D
- Appr. 88cm (H) x 57cm (W) x 35cm (D)
- Appr. 121cm (H) x 57cm (W) x 45cm (D)

SMPS CRUSADER 90+20 II WS - FA - bottom envelope retracted

FALANX SYSTEM

SMPS DRAGBAG LONG III

LV00049-xx

GENERAL

The DragBag Long is shaped to fit in the envelope from Crusader RC. When used on its own DragBag Long can hold a 130cm long distance rifle, including mounted telescope and accessories. Larger rifles can be stowed in (two) parts, strapped to the molle attachment loops inside. DragBag Long comes with a detachable harness & belt.

FEATURES

- Molle inside to strap components from bigger weapon systems
- Detachable harness and hip belt
- Back panel reinforced with a Nylon plate to avoid metal objects pressing through

SMPS FOLDABLE DAYPACK III

LV00051-xx

GENERAL

Foldable Daypack III is the next generation packable modular daypack. Foldable Daypack III can be stowed anywhere in a rucksac, or pocket, because of its weight and small volume when folded. Foldable Daypack III provides 35L additional space. Foldable Daypack III can take the side pockets from any large rucksac in the range, totalling to a volume of 55L. With the zippers from the side pockets, the 55L pack can be connected to the zippers from SMPS DragBag Long and FMPS Weapon Bag M. This way a smaller pack can be formed for missions with less opportunities to hide.

FEATURES

- Compatible with all BMPS/FMPS/MMPS/SMPS zippers
- Forms a 55L rucksac in combination with DragBag Long and MMPS Pockets, as well as with FMPS Weapon Bag M

SMPS AMMO POCKET

LV00056-xx

GENERAL

The SMPS Ammo Pocket integrates with Centurio, Crusader and Vulcan rucksacs, incl. DragBag Long.

FEATURES

- Compatible with all FMPS/MMPS/SMPS zippers
- Holds magazines and has options for storage of accessories
- Can optionally be closed with both Velcro and or buckles

FMPS CRUSADER 90+20 II EC - FA WITH RADIO

FMPS WEAPON BAG S II

FMPS WEAPON BAG S II
FITTED FOR PARACHUTE OPS

FMPS WEAPON BAG M II

FULL MISSION PACK SYSTEM

Crusader 90+20 II EC - FA (extended capacity) is another smart derivate from the Crusader family with unique functions. Any type of man portable radio equipment can be stowed in the wide envelope at the center of the back. The radio can easily be operated without having to open the rucksac itself. FMPS delivers the flexibility to carry a variety of radio equipment and batteries without sacrificing space for (individual) combat equipment. Additional pockets for antenna's and a "mil spec" laptop are making Crusader 90+20 II EC - FA extremely suitable for any comms job!

Crusader 90+20 EC is not just about radio equipment. The envelope can be changed quickly into a compartment in which odd size equipment can be stowed. Anything like heavy weapons, grenades, .50 inch ammo boxes, large volume cans for water, ski-boots, tents etc. can be stowed in the envelope. Heavy weapon operators love Crusader 90+20 II EC - FA to bits ! The rigid Falanx system nicely transfers the load on the hips and protects the back from typical military equipment pressing through. Crusader 90+20 II EC - FA is an incredible solution to transport man portable heavy weapons and radio equipment.

FMPS CRUSADER 90+20 II EC - FA LV00191-XXX

GENERAL

The Crusader 90+20 II EC - FA, the work horse from the forces. This pack holds every piece of combat equipment a soldier on foot may need. Placed in the envelope at the center of the back a radio can be operated without having to open or unpack the rucsac itself. The complete original pack volume from Crusader (90+20 ltr.) remains available to stow individual equipment.

FEATURES

- Falanx back system
- Front Access (FA)
- Removable pad creating space for ballistic protection
- Two detachable MMPS side pockets zip together to make a daypack (shoulder straps, chest strap and arm rest straps are included in top compartment)
- Hydration system compatible
- Ski attachment points on side pocket and backpack body
- Hip belt tightens by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness
- Envelope to store a long distance rifle, anti-tank missile, Weapon Bag M with rifle fitted, or to stow and operate radio equipment, heavy odd size equipment like ammo boxes, grenades, heavy weapons, tent, water can, ski boots etc.

SPECIFICATIONS

- Armadura 1000D
- Appr. 88cm (H) x 57cm (W) x 45cm (D)
- Appr. 5300g
- 110l (90l plus 20l) and appr. 40l from the envelope
- One size
- adjustable S, M, L (body length 165 - 195cm)

FMPS WEAPON BAG M II LV00078-xxx

GENERAL

The Weapon Bag M is shaped to fit in the envelope from Crusader EC. Weapon Bag M takes almost all of the man portable heavy weapons from a unit, like light machine guns, mortars and sniper rifles with a foldable stock. Weapon Bag M is also a protecting sheath for weapons with optics mounted. A perfect protection when inserted by parachute or just going to the shooting range for the day. Any of the accessory FMPS/MMPS/SMPS pockets can be zipped on Weapon Bag M. Weapon Bag M comes with a detachable harness and hip belt.

FEATURES

- Takes weapons up to a length of 105cm
- Molle inside to strap parts of taller weapons (Barrett, MAC 60mm mortar, LAW's etc.)
- Detachable harness and hip belt
- Back panel reinforced with a Nylon plate to avoid metal objects pressing through

BERGHAUS MEDIC PACK SYSTEM

BMPS has been developed to carry medic equipment by both medic specialist team members from operational units, or dedicated medic staff. BMPS was created after intensive contacts with medic experts. Requirements from the medics based on experience in combat and Berghaus as a high end rucksack supplier, formed a unique blend which has led to a modular solution of carrying medic equipment. BMPS packs have been extensively tested and proven in the world's toughest environments.

BMPS FIRST AID KIT II (IFAK)

LV00058-xxx

GENERAL

BMPS IFAK II holds and protects your first aid medic equipment in an organized and overseeable manner.

FEATURES

- BMPS IFAK can optionally be worn as a leg pouch, or attached to the molle loops from an ops vest
- Grab handle to quickly pull of the IFAK from the Velcro patch
- Rain cover

BMPS CENTURIO MEDIC

LV00057-xxx

GENERAL

Holds and protects medic equipment in two different configured pouches. A maximum of three different pockets can be attached to Centurio Medic to customize the pack either for storage of individual equipment, water (Hydration Pocket), or even more medic supplies (Organiser Pocket II).

FEATURES

- Compatible with all FMPS/MMPS/SMPS side pockets
- Two side attachment straps and wand/bottle pocket on each side
- Molle webbing attachment points
- Includes a Medic Pouch M & L
- Pouches M & L can be pulled out to be used independent from each other
- Includes 10 mesh pouches with transparent top and Velcro bottom for storage of medic supplies inside Medic Pouch M and Medic Pouch L
- Two rain covers: Tonal and orange color

BHDD SPATHA 140 WHEEL

LV00069-xxx

GENERAL

Spatha 140 is a derivative from the SF liked Gladius 140 Wheel. The massive duffel is pulled by an end grab handle. The bottom is made from PU honey comb board, reinforced with aluminium bars. Besides top access, Spatha 140 also has a clam shell access. With a zipper around the main body, the top compartment from Spatha 140 can be folded aside. The bottom compartment is covered with soft Velcro and has flexible or removable walls. With the flexible walls, tailored space can be made in any configuration with which expensive vulnerable equipment stays safely in place. Spatha 140 is the solution to transport a drone, rifle, helmet, observation devices, forensic equipment etc. The top compartment can be used the same time for soft goods like clothing. The bottom compartment is accessible via the top compartment in case Spatha 140 is operated from the trunk of a car.

FEATURES

- Clam shell design with two separate compartments
- Velcro covered bottom compartment with flexible walls
- Access from top to bottom compartment via a zippered divider
- End grab handle and wheels
- Lockable zippers
- Two compression straps on the in- and outside
- Daisy chainsLockable zip sliders

FABRICS AND FIT GUIDE

FABRICS

ARMADURA 70 D

A high density ripstop using highly packed 70 D fine yarns for low weight. A combination of DWR treatment on the face and a 4 x PU coating applied to the reverse gives high waterproofness.

ARMADURA 210 D HD RS

An ultra lightweight 210 denier high density nylon ripstop woven fabric, delivering fantastic tear strength and durability.

ARMADURA 1000 D

A 1000 denier texturised nylon used for its very high tear strength and abrasion resistance.

CORDURA 560 DTEX – TL 8305-0278

A 560 denier polyamide 6.6 Cordura meeting the requirements of the Bundeswehr TL 8305-0278, including a high-end infrared protection.

CORDURA 1100 DTEX – TL 8305-0278

A 1100 denier polyamide 6.6 Cordura meeting the requirements of the Bundeswehr TL 8305-0278, including a high-end infrared protection.

TARPAULIN®

Tarpaulin is a waterproof coated texturized 1.000D polyester used for its very high tear strength and abrasion resistance.

POLYAMIDE RIPSTOP 900D 6.6

A 900 denier polyamide 6.6 ripstop fabric with a waterproof coated outer. Light fabric with a high tear and tensile strength.

GORE-TEX®

GORE-TEX® is designed to provide breathable comfort and durably waterproof and windproof protection. GORE-TEX® is ideal for a wide range of outdoor activities. The secret of GORE-TEX® fabrics lies within its revolutionary membrane. The expanded PTFE portion of the membrane contains over 9 billion microscopic pores per square inch. These pores are approximately 20,000 times smaller than a drop of water, but 700 times bigger than a molecule of moisture vapour. So whilst water droplets cannot penetrate the GORE-TEX® membrane, moisture vapour (a gas) can easily escape.

FIT GUIDE

BACKLENGTH FOR CYCLOPS II

SIZE	TYPICAL HEIGHT IN CM
1	153 - 165
2	160 - 173
3	170 - 183
4	183 - 198
