

QDP-4616

Cantilever Scope Mount Ø34 H38mm/1.5" 6MIL QDP

Picatinny mount for use on AR10 rifles

Rings: 34 mm
Tilt: 6 MIL/20.6 MOA
Height: 38 mm/1.5"
Length: 151 mm/5.94" (mount body only)
Weight: 270 g/9.5 oz
Interfaces: 8 sets
EAN: 7340150705084

The **IDEAL SCOPE MOUNT SYSTEM** series of mounts feature **eight set of interfaces** to **attach any of more than 40 different accessories** and has a bubble level integrated in the rear plane of the mount body to prevent canting of the rifle. The rings are diagonally cut for increased visibility of the elevation and windage turrets (US Patent 8,733,011).

The mounts are machined from billet 7075 T651 aluminum and all aluminum parts are hardcoat anodized. The Torx 20 ring and clamping screws are zinc-nickel coated for corrosion resistance. The screws come pre-waxed from the factory to ensure proper torque values.

The mount is shipped with a manual and a "wedge" leveling key.

NOTE:

The QDP-4616 is a quick detachable version of the SP-4616, designed for use with 56 mm objectives on AR15/AR10 rifles with MIL-STD-1913 or STANAG 4694 rails, and has an absolute co-witness with back-up iron sights. The QDP-4616 will fit most 34 mm scope tubes except for scopes with extended erector housings, such as the US Optics TPAL/EREK.
