Length: 108 mm/4.25"
Weight: 141 g/ 5.0 oz
Interfaces: 1 set
EAN: 7340150712273

The **Spuhr® Hunting Series** of mounts features the diagonally cut rings of the **Spuhr® Ideal Scope Mount System** (ISMS™, US Patent 8,733,011) and implements them into a lightweight and aesthetically more pleasing mounting solution for the hunting market.

The **SCP-4001 Hunting Mount** features one **Spuhr Interface™ Top Cover**, which can be installed as to position any of more than 40 different accessories in either the 12 or 3 o'clock position.

The mounts are machined from billet 7000 series aluminum and all aluminum parts are hardcoat anodized. The Torx 20 ring and clamping screws are zinc-nickel coated for corrosion resistance and come pre-waxed from the factory to ensure proper torque values. Furthermore, the SCP-series of Hunting Mounts can be installed for either right-handed or left-handed use.

The mount is shipped with a manual and a "wedge" leveling key.

NOTE:

The SCP-4001 is designed for use on rifles with MIL-STD-1913 or Weaver one-piece rails. The SCP-4001 will fit most 34 mm scope tubes except for scopes with extended erector housings, such as the Nightforce B.E.A.S.T. or the US Optics TPAL/EREK.
