Length: 108 mm/4.25"
Weight: 140 g/4.9 oz
Interfaces: 0 sets
EAN: 7340150712280

The **Spuhr® Hunting Series** of mounts features the diagonally cut rings of the **Spuhr® Ideal Scope Mount System** (ISMS™, US Patent 8,733,011) and implements them into a lightweight and aesthetically more pleasing mounting solution for the hunting market.

The **SCP-4001A Aesthetic Mount** features two **Classic Top Covers**, for a more traditional look and for those who have not need for attaching accessories to their mounts.

The mounts are machined from billet 7000 series aluminum and all aluminum parts are hardcoat anodized. The Torx 20 ring and clamping screws are zinc-nickel coated for corrosion resistance and come pre-waxed from the factory to ensure proper torque values. Furthermore, the SCP-series of Hunting Mounts can be installed for either right-handed or left-handed use.

The mount is shipped with a manual and a "wedge" leveling key.

NOTE:

The SCP-4001A is designed for use on rifles with MIL-STD-1913 or Weaver one-piece rails. The SCP-4001A will fit most 34 mm scope tubes except for scopes with extended erector housings, such as the Nightforce B.E.A.S.T. or the US Optics TPAL/EREK.
