

SP-3026C

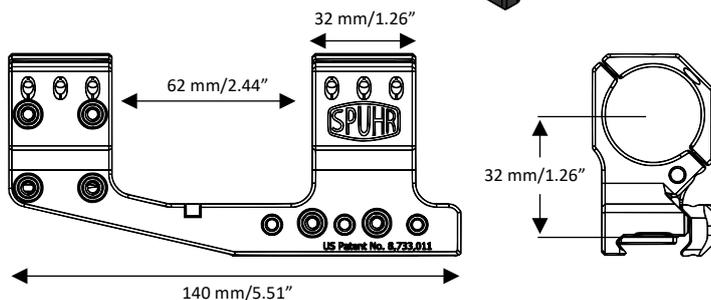

Cantilever Mount \varnothing 30 H32mm/1.26" 0MIL PIC Gen3

The Noveske Shooting Team Mount

Rings: 30 mm
Tilt: 0 MIL/MOA
Height: 32 mm/1.26"
Length: 140 mm/5.51"
Weight: 223 g/7.9 oz
Interfaces: 7 sets
EAN: 7340150702069

The **IDEAL SCOPE MOUNT SYSTEM** series of mounts feature **seven set of interfaces to attach any of more than 40 different accessories**. The rings are diagonally cut for increased visibility of the elevation and windage turrets (US Patent 8,733,011).

The mounts are machined from billet 7000-series aluminum and all aluminum parts are hardcoat anodized. The Torx 20 ring and clamping screws are zinc-nickel coated for corrosion resistance and come pre-waxed from the factory to ensure proper torque values.

The mount is shipped complete with a manual and a "wedge" leveling key.

NOTE:

The SP-3026C is an updated version of the SP-3026, which we designed for **The Noveske Shooting Team**, featuring a new side clamp design. The SP-3026C will fit most 30 mm scope tubes except for scopes with extended erector housings, such as the US Optics TPAL/EREK.

This mount was designed for competition use on AR-15 carbines and does not align with back-up iron sights. Due to the low height and extreme cantilever, the SP-3026C does not feature a bubble level as the rest of the ISMS series do.
