The **IDEAL SCOPE MOUNT SYSTEM** series of mounts features **seven sets of interfaces** to **attach any of more than 40 different accessories** and has a bubble level integrated in the rear plane of the mount body to prevent canting of the rifle. The rings are diagonally cut for increased visibility of the elevation and windage turrets (US Patent 8,733,011).

The mounts are machined from billet 7000 series aluminum and all aluminum parts are hardcoat anodized. The hardened steel side clamp features Cerakote coating, and the Torx 20 ring and clamping screws are zinc-nickel coated for corrosion resistance and come pre-waxed from the factory to ensure proper torque values.

The mount is shipped with a manual and a "wedge" leveling key.

NOTE:

The SP-6022M is a redesigned version of the SP-6016 and is designed for use with 56 mm objectives on AR15-style rifles with MIL-STD-1913 or STANAG 4694 rails and has an absolute co-witness with back-up iron sights.
